## Historical Review

For many years, the professional engineers in Canada had discussed, at their conventions, the advisability of securing such legislation as would give the members of the profession a legal standing in the community. As early as 1899 a Bill was introduced in the Ontario Legislature, to incorporate the Canadian Society of Civil Engineers, but it was withdrawn after receiving its second reading—as strong opposition developed from Mining Engineers and some Civil Engineers. In some of the other provinces the promoters were more successful, but the legislation secured was imperfect and the Acts were not strictly enforced.

In 1919, however, the demand for legislation became so insistent that a special committee was appointed by the Engineering Institute of Canada to consider the matter. This committee met in Montreal in April, 1919, at which meeting a Bill was drafted. It was decided to include in any legislation, professional engineers of all classes, and to invite their co-operation and support. Eventually the principles of this Bill were approved by the professional engineers in the different provinces and legislation similar to that specified in the draft Bill was passed in British Columbia, Alberta, Manitoba, New Brunswick and Nova Scotia, in the year 1920. In Quebec an act had been passed in 1909 which has since been so amended that it now more closely conforms with the acts passed in the other provinces.

The Ontario Division of the E. I. C. took the initiative in this province and issued invitations to other engineering organizations, to appoint delegates to consider legislation. All these organizations responded, and the first meeting of what was called the Advisory Conference Committee, was held in Toronto on March 13th, 1920, but owing to the many conflicting interests and divergencies of opinions in Ontario, it was not until December 8th, 1920, that a Bill satisfactory to members of Committee was drafted. The work of the Advisory Conference Committee extended from March 13th, 1920, until the Act was passed in June 13th, 1922.

Several months elapsed after December, 1920, before the draft Bill received the approval of the various engineering organizations responsible for the appointment of the Advisory Conference Committee, and it was not until April 6th, 1921, that it received its first reading in the Legislature. On April 20th it was given its second reading and referred to a Special Committee, but the House adjourned on May 3rd, without passing the Bill.

The Advisory Conference Committee held six additional meetings before the Bill, (No. 67), was again introduced in the Legislature on May 10th, 1922. With some slight amendments, the Bill was approved by the Special Committee appointed by the House to consider it, but, at its third reading on June 5th, important clauses were deleted. The Ontario Act, as passed, however, is similar to the Alberta Act.

When the Association receives the unanimous support of the professional engineers in the province, it will be justified in demanding the replacement of the clauses in the Bill that were struck out at its third reading in June, 1922.

By the Act, a Provisional Council was appointed to organize the Association and to administer its affairs until a sufficient number of members were enrolled to take over its management. Its first meet-

ing was held on August 8th and 9th, 1922, at which committees were appointed to consider (1) Registrar and Office, (2) By-laws and (3) Organization and Registration. The second meeting of Council was held on August 28th, 1922, at which the reports of committees were considered, and the engagement of a Registrar authorized. On September 2nd, 1922, organization was effected by the appointment of Mr. R. B. Wolsey as Registrar and Secretary-Treasurer; by the selection of the President, General Mitchell, Vice-President, Mr. Bryce, Mr. Ewart, Professor Haultain and Mr. Chipman as an Executive Committee; and by the approval of the By-laws, which had been drafted.

A circular letter, dated October 26th, 1922, over the signature of the President, General C. H. Mitchell, was sent to every professional engineer in the province whose name and address could be ascertained, extending an invitation to make application for registration in the Association, the response to which was extremely gratifying.

The third meeting of Council was held on November 29th, 1922, at which the first group of applications for registration was accepted, and on December 7th a further number of members was admitted.

On January 5th, 1923, a meeting of the Provisional Council was held to consider further applications for registration, and to approve a form of members' certificates and of designs of seals. A final meeting of the Provisional Council was held on January 8th, 1923, to draft reports, etc., for submission to the first General Meeting. The membership was then 478.

The first General Meeting of the Association was held at the Engineers' Club, Toronto, on the evening of Monday, January 8th, 1923, as provided by Sec. 40 (4) of the Act, at which 81 members were present. The report of the Provisional Council was presented and adopted, and officers and councillors elected for the year 1923.

The elected council met for the first quarterly meeting on January 23rd, 1923, but as the five councillors which the Act provided should be named by the Lieut.-Governor, had not been appointed, only routine business was transacted. The Government appointments were made on February 15th, 1923. The Council met on February 27th, and appointed the President, Mr. Chipman; the Vice-President, Mr. Ewart; Mr. Burnett; Professor Watson Bain; and Mr. Mickle, an Executive Committee, also a Board of Examiners, of ten members. Registrations to this date were 633.

The second quarterly meeting of Council was held on April 28th, 1923, at which matters of policy, and interpretations of By-laws and of the Act were discussed. The registrations had now increased to 731.

At the third quarterly meeting on July 28th, it was decided to publish the list of members, and Col. Lamb and Messrs. Burnett, Heuther, Henderson, Mickle and Chipman were appointed a Committee to draft a Code of Ethics. The Executive was also requested to co-operate with the Board of Examiners in drawing up rules and regulations for Examinations. The registered membership to date was then 956.

At the quarterly meeting on October 13th, much important business was transacted. A financial statement was presented, a policy decided upon respecting notification to applicants not fully qualified, and Mr. R. R. Grant was appointed auditor. The form of the booklet

to be issued was approved, and a Code of Ethics adopted. The total registrations to October 13th, 1923, were as follows:— Civil Branch, 659; Mechanical, 93; Chemical, 21; Electrical, 155; Mining, 105; Total, 1033. This large membership is very gratifying, and the most sanguine hopes of those instrumental in forming the Association have been exceeded. It was predicted in June, 1922, that the membership might possibly reach 1,000 in three years, whereas that number has been exceeded within one year.

Meetings of the Executive have been held monthly since April for the disposal of routine business. The Statement printed herewith shows the very satisfactory financial position of the Association. The expenses incidental to the carrying on of the business during the first year have been heavy, but the Annual fees have been sufficient to meet all charges. The registration fees of \$10.00 per member have been placed to Capital Account and invested in Government Bonds; after making payments of expenses incurred for preliminary organization and for office equipment.

While the Act passed in 1922 does not give adequate protection to the public against incompetent engineering; nor to the engineering profession against persons lacking proper qualifications or experience undertaking professional engineering; nor gives Engineers the professional recognition they deserve; the Association has accomplished much good in the short time it has been in existence: the status of professional engineering in Ontario has been raised, and amendments to the Act will undoubtedly be passed from time to time as the necessity for additional protection to the public is better appreciated by the Legislature.

The Association is deeply indebted to the Advisory Conference Committee, and desires to express its appreciation of all that was done to bring about the legal recognition of professional engineering in this province.

	\$ 4,715.58
Surplus for period .....	28.51
	———— \$ 4,744.09

R. B. WOLSEY,  
Secretary-Treasurer.

# The Professional Engineers' Act

Assented to by Lieut.-Governor-in-Council,  
13th June, 1922

HIS MAJESTY, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:

1. This Act may be cited as The Professional Engineers' Act, 1922.

2. In this Act

- (a) "Association" shall mean the Association of Professional Engineers of the Province of Ontario;
- (b) "Board" shall mean the Board of Examiners of the Association;
- (c) "Council" shall mean the Council of the Association;
- (d) "Licensed" shall mean that permission has been granted by the council to a non-resident engineer to practise temporarily without being registered, and "License" shall mean the official certificate under the seal of the Association evidencing such permission;
- (e) "Member" shall mean a Registered Member of the Association;
- (f) "President" shall mean the President of the Association;
- (g) "Professional Engineering," save as herein-after mentioned, shall mean the advising on, the reporting on, the designing of, the supervising of the construction of, all public utilities, industrial works, railways, tramways, bridges, tunnels, highways, roads, canals, harbour works, light houses, river improvements, wet docks, dry docks, floating docks, dredges, cranes, drainage works, irrigation works, waterworks, water purification plants, sewerage works, sewage disposal works, incinerators, hydraulic works, power transmission, steel, concrete and reinforced concrete structures, electric lighting systems, electric power plants, electric machinery, electric apparatus, telephone systems, telegraph systems, cables, wireless plants, mineral property, mining machinery, mining development, mining operations, gas and oil developments, smelters, refineries, metallurgical machinery, and equipment and apparatus for carrying out such operations, machinery, steam engines, hydraulic turbines, pumps, internal combustion engines

and other mechanical structures, chemical and metallurgical machinery, apparatus and processes, aeroplanes, air ships, and all other engineering works;

- (h) "Registered" shall mean that an engineer has been admitted to membership in the Association and that his name has been enrolled in the register; and "Certificate of Registration" shall mean the official certificate under the seal of the Association evidencing the same;
- (i) "Registrar" shall mean the Registrar of the Association;
- (j) "Secretary" shall mean the Secretary or the Secretary-Treasurer of the Association;
- (k) "Vice-President" shall mean the Vice-President of the Association.

3.—(1) All persons registered as professional engineers under the provisions of this Act shall constitute the "Association of Professional Engineers of the Province of Ontario" and shall be a body politic and corporate, with perpetual succession and a common seal.

(2) The head office of the Association shall be at the City of Toronto.

(3) The Association shall have power to acquire and hold real or personal property not producing at any time an annual income in excess of \$10,000, and to alienate, mortgage, lease, or otherwise dispose of such property or any part thereof as occasion may require.

(4) All fees, fines and penalties receivable and recoverable under this Act shall belong to the Association.

4. The Association may pass by-laws not inconsistent with the provisions of this Act for:

- (a) The election of "council";
- (b) The government and discipline of the members;
- (c) The management of its property;
- (d) The appointment of such officers as may be necessary for carrying out the purposes of the Association;
- (e) The maintenance of the Association by fixing, levying and collecting the necessary fee from each member and licensee, which fee shall not exceed \$10 per annum;
- (f) The admission of candidates to registration;
- (g) The keeping of the "register";
- (h) Fixing dates and places of meetings of the "Association";
- (i) All such other purposes as may be deemed necessary or convenient for the management of the Association, or the conduct of its business.

5. No by-law of the Association or amendment thereto shall be valid or take effect until approved by the Lieutenant-Governor in Council.

6.—(1) For purposes of representation upon the council and for registration, and for such purposes only as are hereinafter set out, membership of the Association shall be subdivided into the following branches: Civil Engineers, mechanical engineers, chemical engineers, electrical engineers, mining engineers.

(2) Each member admitted to the Association may register in all branches for which he can submit credentials satisfactory to the authority governing admission to each of such branches, but he shall, however, vote in only one such branch according to his own selection, but may transfer his vote to some other branch in which he is registered, upon the approval of the council.

7. Additional branches may be established by the Lieutenant-Governor in Council upon the petition of not less than 100 registered members of the Association, provided such petition be approved by the council, or upon petition of 200 members of the Association if such approval be not obtained.

8.—(1) The council shall consist of a president, a vice-president, an immediate past-president and three councillors from each branch of the Association, all of whom shall be registered members of the Association.

(2) The president, who shall be elected annually by vote of members, shall hold office until his successor is elected, shall act as presiding officer at the meetings of the council and of the Association, voting only when the votes are evenly divided, and on his retirement shall hold office as councillor for the next year succeeding.

(3) The vice-president shall be elected annually by vote of members, and shall have all the powers of the president during the absence of the latter.

(4) Two councillors shall be elected annually from each branch of the Association by the vote of the registered members in such branch, and one councillor from each branch shall be appointed by the Lieutenant-Governor in Council.

(5) The council shall appoint a registrar and a secretary, who shall hold office during the pleasure of the council.

9.—(1) The members of the council representing each branch shall control, subject to the terms of this Act, the conditions for registration and for licensing in such branch, including credentials, examinations and exemptions.

(2) The council as a whole shall have the power to review the establishment of and the carrying out of the conditions for registration as administered by the representative councillors from all branches, and shall have the power to require the representatives of such branches to modify their administration in order to maintain a standard of qualification in members satisfactory to the council.

(3) The revocation of certificates and the reissuing of such certificates, the questions of discipline, fines, suspensions, expulsion, finance, overlapping of practice in branches, and all matters not coming within the provisions of subsection (1) shall be dealt with by the council as a whole.

#### **Registration Within One Year**

10.—(1) Any person residing in the Province of Ontario at the date of the passing of this Act, who has been engaged in engineering for five or more years, shall be entitled to be duly registered as a member of the Association without examination, provided that such person shall produce to the council, within one year of the passing of this Act, satisfactory evidence of having been so engaged.

(2) Any person residing in the Province of Ontario, not qualified as in subsection (1) above, may make application for membership in the Association and shall successfully pass such examination as shall be prescribed by council, or submit credentials satisfactory to the council, to be admitted to membership.

(3) Any person who applies for membership in the Association within one year from the passing of this Act shall submit to the council with his application a statement giving a summary of his engineering experience, which statement shall be made upon the forms prescribed by the council.

(4) The council may require the applicant for membership to prove the correctness of the statements made in his application by attesting by oath or by affidavit.

(5) If the evidence of employment as engineer for five years, as submitted by the applicant, be considered satisfactory by the members of the council representing the branch to which admission is desired, he shall be admitted to membership in the Association without examination and the registrar shall issue a certificate of registration to applicant and enter his name in the register.

(6) Any person duly authorized and registered as an Ontario land surveyor at the date of the passing of this Act shall be entitled on application within one year of the passing of this Act, to be admitted as a member of the Association in the branch of civil engineers.

11. If the applicant for membership has been engaged for less than five years as a professional engineer at the date of the passing of this Act, he shall submit certificates and proofs respecting the period of his employment to the date of his application, and the members of council, representing the branch to which admission is desired, will determine from the evidence so submitted the period of such employment.

#### **Registration After One Year**

12. Any person resident in the Province of Ontario who has applied for membership in the Association within one year from the passing of this Act, who has not been admitted under the provisions of section 10, shall file with the secretary a notice setting forth his employment and the name of

his employer, which notice shall be filed annually during the term necessary to complete the five years of employment, and if such person's record of employment is satisfactory, he shall be admitted to membership without examination.

13.—(1) Any person who applies for membership in the Association after one year from the passing of this Act shall submit to the council with his application a statement giving a summary of his experience as an engineer or surveyor, which statement shall be made upon the forms prescribed by the council.

(2) The council may require the applicant for membership to prove the correctness of the statement made with his application by attesting by oath or by affidavit.

(3) If the evidence of engineering experience for not less than five years, as submitted by the applicant, is considered satisfactory by members of council representing the branch to which admission is desired, the applicant shall be admitted to membership after successfully passing the prescribed examination in the theory and practice of such branch of engineering or, in lieu of such examination, upon submission of evidence satisfactory to the members of council representing such branch and to the council as a whole.

(4) An applicant who is required to successfully pass an examination may select any one or more branches of engineering for his examination.

14. Any resident of Canada who may come to reside in the Province of Ontario and who at the time is a duly registered member of an association of professional engineers in any province of the Dominion of Canada similarly constituted to this Association, may upon application made to council be admitted to membership upon producing a certificate of membership in such province.

15. Any person who comes to reside in Ontario who is a registered member of any association or institute in other parts of the British Empire or in the United States similarly constituted to this Association, and which grants reciprocal privileges and who applies for membership in this Association, may be admitted to membership upon producing to council a certificate of membership in such association or institute.

#### Graduates

16.—(1) Any graduate in any branch of engineering or of science, the practice of which constitutes professional engineering as defined in clause (g) of section 2, from any university recognized by the council upon presenting evidence of graduation satisfactory to the council will be granted, as part of his term of employment, the actual time of instruction in such university, this total not to exceed four years, and such graduate will not be required to submit to a written examination.

(2) Graduates or undergraduates of recognized engineering colleges or bona fide assistants serving under articles may during the remainder of their respective periods required for registration be engaged in professional engi-

neering as defined in this Act under the guidance of professional engineers who assume full responsibility for their work, but shall not be classed as professional engineers until registered as members of the Association as provided in this Act.

(3) Such graduates, undergraduates, or assistants serving under articles may, during their respective engineering courses or terms of service, be recorded with the Association, and such graduates, undergraduates, or assistants serving under articles shall be subjected to the control of the council as provided in this Act and to the by-laws of the Association, but shall not be members of the Association.

### Licensing

17.—(1) Any person not residing in the Province of Ontario who is a registered member of an Association of engineers similarly constituted of any other province of the Dominion of Canada may upon application obtain from the registrar a license to practice as a professional engineer in the Province of Ontario upon production of evidence of his registry in such other province.

(2) Any person who is not a resident of Canada, but who, in the opinion of the members of council in any branch, is recognized as a consulting specialist in such branch of engineering, and has had not less than ten years of experience in the practice of his profession, or who presents evidence to satisfy such members of council that he has equal qualifications with those required for registration in such branch of the profession, may, with the approval of the members of council of such branch, be granted a license to practice in that branch.

(3) Any professional engineer who is a resident of some other province of Canada in which there is no association of engineers similarly constituted may obtain a license to practice in a branch of engineering, subject to the approval of the members of council representing such branch.

(4) In the event of any such person mentioned in this section being unable by reason of emergency or neglect on the part of the registrar, or for any other good and sufficient reason, to obtain such license within three months of his making application therefor, he shall be entitled to practice as a professional engineer in the province for such period of three months without holding such license.

18. Any person who is employed as a professional engineer by a public service corporation, public utilities or Government department, who is by reason of his employment required to practise as a professional engineer in provinces other than that of his residence, may so practise, in the Province of Ontario without holding a non-resident license or payment of fee, providing such person can on demand of the council produce credentials satisfactory to the council showing that he is a registered member of an association of engineers similarly constituted by some other province of Canada.

## Membership

19.—(1) Only such persons who are members of the Association hereby incorporated, and registered as such under the provisions of this Act, or who have received a license from the council of the Association as hereafter provided, shall be entitled within the Province of Ontario to take and use the title "Registered Professional Engineer," or any abbreviation thereof.

(2) Each member of the association shall have a seal, the impression of which shall contain the name of the engineer and the words "Registered Professional Engineer" and "Province of Ontario," with which seal he shall stamp all official documents and plans, and the design of such seal shall be approved by the council.

20. The provisions of this Act shall not apply against any person while carrying on his duties in His Majesty's naval, military or aerial service.

21. Engineers who were employed in professional engineering in the Province of Ontario, and who were accepted for overseas service in the war of 1914-1919, in the forces of Great Britain or any of her allies, shall on their return to Canada be entitled to all the rights and privileges conferred under section 10.

22. Notwithstanding any other provision of this Act; no person shall be registered as a member of the Association until after he has attained the age of twenty-one years.

## Partnership

23.—(1) In the cases of two or more persons carrying on a practise as professional engineers in co-partnership, only such members who are registered or licensed under this Act shall individually assume the function of a professional engineer.

(2) A firm or corporation of professional engineers cannot, as such, be deemed to be a member of the Association or be licensed to practise.

## Examinations

24. The council shall appoint annually a board of examiners for each branch of engineering from nominations made by members of council representing each of such branches.

25.—(1) Examinations of candidates for registration or for license shall be held at least once per annum, at such place or places as the council may direct.

(2) The scope of the examinations and the methods of procedure shall be prescribed for each branch by the members of council representing such branch, with special reference to the applicant's ability to design and supervise engineering works which shall insure the safety of life and property.

(3) The board shall examine all degrees, diplomas, certificates and other credentials presented or given in evidence for the purpose of obtaining registration or license to prac-

tise, if referred to them by the council, and may require the holder of such degree, diploma, certificate or other credentials to attest on oath, *viva voce* or by affidavit concerning the matter of his application.

(4) The candidate shall submit to an examination before the board, or before such members of the board as may be deputed by the council to conduct such examination, on such branch or branches of professional engineering as the candidate may select.

(5) As soon as possible after the close of each examination the members of the board who shall have conducted such examination shall make and file with the secretary a certificate stating the result of such examination, whereupon the council shall notify each candidate of the result of his examination and of their decision upon his application.

(6) A candidate failing on examination may after an interval of not less than nine months be examined again.

(7) The council shall from time to time prescribe the fees payable by candidates for examination, which fees shall be payable in advance by the candidates.

26. The council shall have power to establish conjointly with any council of any association similarly constituted in one or more of the provinces of Canada a central examining board, and to delegate to such central examining board all or any of the powers possessed by the said council respecting the examinations of candidates for admission to practise, provided that any examination conducted by such central examining board shall be held at least in one place within this province.

#### Register and Registrar

27.—(1) The registrar shall issue a certificate of membership to each member admitted to the association by the council, such certificate to be signed by the president or the vice-president and by the registrar, and it shall bear the seal of the Association, and shall also state the branch or branches of engineering in which the member was examined or otherwise accepted.

(2) The registrar shall issue a license to practise to any person entitled thereto, such license to specify the work upon which the holder of the license is to be employed and the period for which the same is issued, but in no case shall the period extend beyond the end of the calendar year in which such license was issued.

(3) The registrar shall enroll in the register provided by the council the names of all persons admitted to the Association by the council, also the names of all persons licensed by the council.

28. The registrar shall keep the register correct and in accordance with the provisions of this Act and the instructions of the council.

29. The annual fee due from a member shall be deemed to be a debt due the association and may be recoverable with the costs of same from such member in the name of the council or of the Association in any court of competent jurisdiction.

30.—(1) If any member neglects or refuses to pay the annual fee for six months from the date upon which it became due, after written notice from the secretary to the member's last known address on the register, the registrar shall cause the name of such member to be erased from the register, and such person shall thereupon cease to be a member, but such person shall at any time thereafter, upon payment of such fees as may be prescribed by the council, be entitled to reinstatement as a member.

(2) Any member may resign from membership in the Association upon giving written notice to the secretary and by payment of all dues in arrears, if any, whereupon the name of such member shall be erased from the register and such member shall be relieved of the liability for further annual dues, but such person shall at any time in the future be admitted as a member upon payment of the fees prescribed by the council.

(3) Any member whose name has been erased from the register shall not be entitled to any of the rights and privileges conferred by the provisions of this Act until he has been re-admitted as a member.

31. In case the council should refuse to register any applicant for membership in the Association, or refuse to issue a license to practise to any applicant therefor, the person aggrieved shall have the right to apply to a judge of the Supreme Court of Ontario, who, upon due cause shown, may make an order directing the council to register the name of such person as a member of the Association, or to grant a license to practise, or make such other order as may be warranted by the facts, and the council shall forthwith comply with such order and such order when so made shall be final.

32. The certificate of registration under the seal of the Association shall be *prima facie* evidence of registration.

#### Suspension or Expulsion

33.—(1) The council may, in its discretion, reprimand or censure or suspend or expel any member guilty of unprofessional conduct, or of gross negligence or of continued breach of the by-laws of the Association, or any member convicted of a serious criminal offence by a court of competent jurisdiction.

(2) The council shall not take any such action until after a complaint under oath has been filed with the secretary or the registrar, and a copy forwarded to the member accused, who shall be given an opportunity of submitting evidence in his defence, and the council shall not suspend nor expel a member without having previously summoned him to appear before the council, nor without having heard evidence under oath offered in support of the complaint and in behalf of the member accused.

(3) The council shall have the same powers as Commissioners under The Public Enquiries Act to compel witnesses to appear and give evidence under oath in the manner and

under penalties prescribed by such court, and all such evidence shall be taken in writing or by a duly qualified stenographer.

(4) Any member suspended or expelled may within sixty days after the order of suspension or expulsion appeal to a judge of the Supreme Court of Ontario from such order or resolution, giving not less than seven days' notice of such appeal to the secretary of the Association, and the practice and procedure in such an appeal shall be the same as upon an appeal from a master or referee.

(5) Pending an appeal, the member suspended or expelled by council may continue to practise, but unless the order of suspension or of expulsion be set aside, the member so suspended or expelled shall not practise thereafter except upon the expiry of the period of suspension (in case of suspension).

### **Penalties**

**34.** Any person in the Province of Ontario who, not being registered as a member of the Association in the Province of Ontario, or licensed by the Association:

(a) Uses verbally or otherwise the title of professional engineer, or makes use of any addition to or abbreviation of such title, or of any words, name or designation that will lead to the belief that he is a professional engineer or a member of the Association;

(b) Advertises or holds himself out in any way or by any means as a member of the Association; shall be liable upon summary conviction by any court of competent jurisdiction to a fine of not less than \$100 nor more than \$200 for the first offence, and to a fine of not less than \$200 nor more than \$500 for any subsequent offence.

**35.** If the registrar makes or causes to be made wilful falsification of the register, or in matters connected therewith, he shall upon conviction be liable to a fine of not less than \$100.

**36.** Any person who wilfully procures or attempts to procure for himself registration as member in the Association by making, producing or causing to be made or produced any fraudulent representation or declaration, either verbal or written, and any person knowingly aiding and assisting him therein, shall upon conviction be liable to a fine of not less than \$200.

**37.** Any and all penalties imposed under this Act, and any and all moneys forfeited shall be recoverable with costs under the provisions of The Ontario Summary Convictions Act, and all such sums shall belong to the Association.

**38.** No proceedings shall be commenced for any violation against the provisions of this Act after one year from the date of the committal of such violation.

## Provisional Council

39.—(1) The following persons are hereby constituted as a provisional council of the Association:

President—Charles Hamilton Mitchell, of Toronto.

Vice-President—Robert Alexander Bryce, of Toronto.

Councillors—Representing branch of Civil Engineers—Willis Chipman, of Toronto; John Bow Challies, of Ottawa; Andrew Wellington Gray, of Westport. Representing branch of Mechanical Engineers—Henry G. Acres, of Toronto; Harry Holborn Angus, of Toronto; Arthur Knowlton Spotton, of Galt. Representing branch of Chemical Engineers—James Watson Bain, of Toronto; Stafford Frederick Kirkpatrick, of Ottawa; Harold Van der Linde, of Toronto. Representing branch of Electrical Engineers—Henry U. Hart, of Hamilton; Frank Richard Ewart, of Toronto; Morris James McHenry, of Walkerville. Representing branch of Mining Engineers—George Reginald Mickle, of Toronto; H. E. T. Haultain, of Toronto; James McEvoy, of Toronto, all of whom shall hold office until their successors have been elected and appointed.

(2) If a vacancy should occur in the Provisional Council it shall be filled by the Lieutenant-Governor in Council, who shall notify each member of the Provisional Council of such appointment.

40.—(1) The Provisional Council shall provide the register called for by this Act, and shall cause to be entered therein the names of all persons who are entitled to registration and who apply therefor.

(2) The Provisional Council shall, within four months from the passing of this Act, prepare provisional by-laws not inconsistent with the Act for the various purposes specified in section 4 of this Act, which shall not be valid until approved by the Lieutenant-Governor in Council.

(3) The Provisional Council shall publish a copy of the register within five months from the passage of this Act, and shall mail one copy of such register to each member, and to any person who may apply for a copy, and the Lieutenant-Governor in Council shall also be furnished with a certified copy of the register and of the provisional by-laws.

(4) The Provisional Council shall call a general meeting of the members of the Association for the purpose of electing the members of council, for confirmation or revision of by-laws, and for organization purposes, and for such other purposes as specified in the notice calling the meeting, such general meetings to be held not later than seven months, nor earlier than five months after this Act comes into force.

41. No provisions of this Act imposing penalties shall take effect until one year after the coming into force of this Act.

42. This Act shall come into force and take effect on the day upon which it receives the Royal Assent.

# By-Laws

Passed by Council, 2nd September, 1922

Approved by Lieut.-Governor-in-Council, 19th October, 1922

Amended, 5th July, 1923

---

## Election of First Council

1.—(a) The first general meeting as provided by Section 40, Sub-section 4, of the Professional Engineers' Act, 1922, shall be held on the eighth day of January, 1923. Public notice shall be given of this meeting not less than three weeks in advance by advertisements.

(b) This meeting shall elect a President, a Vice-President, and the members of the several branches present at this meeting shall elect two councillors to represent their respective branches.

(c) Twenty-five members shall constitute a quorum.

2.—The President, Vice-President and Councillors elected at this first general meeting shall hold office until such day in January, 1924, as their successors may be elected to office.

## Nominations

3.—All elections subsequent to the first shall be conducted as follows:

(a) The council shall appoint at its October meeting in each year a Nominating Committee of ten members, comprising two members from each branch. This committee shall make nominations for President, Vice-President and Councillors.

(b) Any ten members in good standing may, however, nominate candidates for president or vice-president, and five members in good standing, in any branch, may nominate Councillors for that branch.

(c) Nominations shall be mailed to the Registrar before the first day of November in each year.

## Voting

4.—(a) The ballot shall be prepared by the Secretary-Treasurer from the nominations received, who shall mail a printed copy to each member on or before December 1st in each year.

(b) Each member, in good standing, shall be entitled to vote for President and for Vice-President, but he can vote only for the Councillors nominated to represent the branch in which he is registered to vote. (A copy of this section of the By-laws shall be printed on each ballot.)

(c) The ballots are to be returned to the Secretary-Treasurer on or before December 31st.

5.—Three Scrutineers shall be appointed by the President in December to count the votes received by the Secretary-Treasurer, who shall report the result of the voting to the President and the Registrar on or before January 15th.

6.—The candidates receiving the highest number of votes shall be declared elected. In the event of a tie between two or more candidates the Secretary-Treasurer shall cast the deciding vote or votes.

### Meetings of Council

7.—The President, Vice-President and Councillors shall assemble within fifteen days after their election for the appointment of officers and for general business.

8.—Seven members of council shall constitute a quorum.

9.—Regular meetings of council shall be held in January, April, July and October, the day, hour and place of meeting to be selected by the President, and notice to be given to each member not less than seven days before such meeting.

10.—(a) The office of Member of Council is vacated by resignation, by death, by ceasing to be a member of the Association, or by absence from more than three consecutive meetings of council, without consent of council.

(b) If a vacancy should occur in Council it shall be filled by the Council for the balance of the year.

11.—The transactions of the Council or of a Committee of the Council, notwithstanding that it may afterwards be discovered that there was cause of disqualification or some defect in the election, shall be valid as if all members had been properly elected and were qualified to act.

### Meetings of Association

12.—General meetings of the Association may be called by the President, with the consent of Council, or by the Secretary Treasurer, upon the petition of twenty-five members in good standing.

13.—Twenty-five members shall constitute a quorum for all General Meetings of the Association.

14.—Notices of a General Meeting shall be sent to all members at least ten days before the date of such meeting. The notice shall state the purpose of the meeting.

15.—All notices required to be given to members of the Association shall be deemed to have been given if mailed prepaid in the Toronto Post Office within the time specified for such notice, addressed to the member at the address given by him to the Association. A declaration by the Secretary shall be conclusive evidence of the mailing of such notice.

### Officers

16.—At the January meeting the Council shall appoint a Secretary-Treasurer and a Registrar, who shall hold office during the pleasure of the Council.

17.—The Secretary-Treasurer shall keep minutes of all meetings of the Association and of the Council; conduct the correspondence; receive all payments due the Association; certify to the correctness of all accounts to be paid; levy fees; give notices of meetings; keep correct accounts; prepare financial statements and perform such other secretarial duties as the Council may prescribe.

18.—The Registrar shall keep the register, issue certificates, and licenses; such duties to be performed in accordance with the instructions of Council.

19.—The offices of Secretary-Treasurer and of Registrar may be combined.

## Finances

20.—Each applicant for registration shall pay the Secretary-Treasurer the sum of ten dollars. In case the applicant be refused admission this sum shall be returned to applicant.

21.—(a) Each member registered under the Act respecting Professional Engineers shall pay annually to the Secretary-Treasurer the sum of five dollars. For those who become registered on or before December 31st, 1922, no annual fee for the year 1922 will be required.

(b) Should any applicant be registered during the first three months of any calendar year, he shall pay the full annual fee, if during the second three months four dollars, the third three months three dollars, and the last three months two dollars.

22.—The fee for license for a non-resident of Ontario to practice in the Province shall be five dollars, which sum shall be paid to the Secretary-Treasurer upon application for license.

23.—Each candidate for examination shall transmit to the Secretary-Treasurer with his notice of intention to qualify for registration, the sum of twenty-five dollars, but if he be not required to pass a written examination, the sum of fifteen dollars will be remitted, the balance being considered as payment of his registration fee.

24.—(a) All money received on behalf of the Association shall be deposited in a chartered bank in the name of the Association, or, if considered advisable by Council may be invested in approved securities guaranteed by the Dominion or Provincial Governments or municipalities; said securities, if purchased, to be placed in a safety deposit vault, subject to access only on the written order of the Secretary-Treasurer and by the President or other person duly authorized by Council, and said securities may be disposed of on a vote of at least twelve of the members of Council.

(b) All payments shall be made by cheque signed by the Secretary-Treasurer and countersigned by the President, or other person duly authorized by Council.

25.—The Secretary-Treasurer shall furnish a bond of an approved guarantee company for the amount of \$5,000, the cost of such bond to be paid by the Association.

26.—At the October meeting of the Council one or more chartered accountants shall be appointed as auditors, who shall examine the finances of the Association for the year ending on October 31st and shall prepare a statement of account and report to the Secretary-Treasurer on or before November 15th.

27.—The balance sheet, with summary of report of Auditors, shall be printed and mailed to all members of the Association, by the Secretary-Treasurer with the ballot for President, Vice-President and Councillors.

## Remuneration

28.—(a) The Council shall have power to employ and to remunerate from the funds of the Association, the Secretary-Treasurer, the Registrar, the Auditor, and the necessary clerical assistants.

(b) The Council shall also have power to provide for an office and to equip the same for carrying on the business of the Association.

29.—Members of Council, residing outside the city of Toronto, who attend the quarterly and special meetings of Council, shall be paid their travelling and hotel expenses.

30.—The Council shall have power to arrange for the remuneration to be paid to Examiners, also to provide rooms in which the examinations are to be held, and for incurring necessary expenses connected with the examinations.

#### Examinations

31.—(a) At the January meeting of the Council a Board of Examiners shall be appointed of not less than five members in good standing, of whom one examiner shall be appointed from each Branch of Engineering in which he is registered.

(b) The Council may at any time fill any vacancy in the Board of Examiners, or replace any member of the Board, or may add to the number.

32.—(a) The Board of Examiners shall meet in March and in September to conduct the examinations of candidates and shall report the results to the Council within one month after such examination.

(b) The Board of Examiners shall conduct the examinations in accordance with such rules and regulations as the Council may prescribe.

33.—The Board of Examiners may depute any member of the Association to conduct a partial or supplemental examination of any candidate in any part of the Province.

34.—Members of the Board of Examiners shall hold office for the calendar year in which they have been appointed, but they shall be eligible for re-appointment.

#### Membership

35.—(a) The Registrar shall issue to each member of the Association within three months after his application has been accepted by Council, a certificate of membership and registration, which certificate shall give the full name of the member; the date of the member's registration, and the Branch or Branches in which he is registered.

(b) The certificate shall be signed by the President and by the Registrar, and shall be sealed with the official seal of the Association.

36.—(a) Any member in good standing may at any time withdraw from the Association by giving written notice to the registrar.

(b) Such member may be re-admitted to full membership in the Association at any time upon formal application to Council, and upon payment of the annual fee for the year in which the application is made. A second registration fee will not be required.

#### Seals

37.—The seal of the Association shall contain the words "The Association of Professional Engineers of the Province of

Ontario, Incorporated 1922," and such appropriate emblem as the Council may select.

38.—The member's seal shall contain the words "Province of Ontario, Registered Professional Engineer," also the name of the member, and the Branch or Branches in which he is registered.

39.—For uniformity the members' seals will be provided by the Council and be supplied to members at actual cost.

### Order of Business

40.—The order of business at meetings shall be as follows:

(a) MEETINGS OF ASSOCIATION—

Reading of minutes.  
Business arising out of minutes.  
Reading and considering correspondence.  
Reading and considering reports from Council and of Committees.  
General business.

(b) MEETINGS OF COUNCIL—

Reading of minutes.  
Business arising out of minutes.  
Reading and considering correspondence.  
Reading and considering reports from Committees, Board of Examiners, Auditor, etc.  
Receiving and considering applications for membership.  
Considering and passing accounts.  
General business.

41.—The proceedings at all meetings of the Association, and of Council, shall be governed by the rules laid down in "Bourinot's Procedure," except as these By-laws may otherwise provide.

42.—In the event of any dispute as to the meaning or intent of any of these By-laws, or of any By-laws which may hereafter be made, the interpretation of the Council shall be final.

43.—All proposed amendments or additions to the By-laws shall be submitted to Council at one of the quarterly meetings, shall be signed by not less than six members, and shall be mailed to Secretary-Treasurer not less than one week before such meeting.

If the proposed amendments or additions be approved by the Council, they shall become effective when approved by the Lieutenant-Governor-in-Council. If not approved by the Council they shall be printed and submitted to ballot of membership within two months. If the majority of the ballots returned be favorable, the amendments or additions shall be forwarded to the Lieutenant-Governor-in-Council for approval.

44.—These By-laws were approved by the Lieutenant-Governor-in-Council on the 19th day of October, 1922. Amendment By-law 26, approved 5th July, 1923.

# Code of Ethics

Adopted by the Council, 13 October, 1923

1.—The engineer shall carry on his professional work in a spirit of fairness to employees and contractors, fidelity to clients and employers, loyalty to his Country and devotion to high ideals of courtesy and personal honour.

2.—He shall refrain from associating himself with or allowing the use of his name by an enterprise of questionable character.

3.—He shall advertise only in a dignified manner, being careful to avoid misleading statements.

4.—He shall regard as confidential any information obtained by him as to the business affairs and technical methods or processes of a client or employer.

5.—He shall have no interest, direct or indirect, in any materials, supplies or equipment used in the construction work of his client or in any firms receiving contracts for his client's work, without in advance informing his client of the nature of such interest and obtaining his written consent.

6.—He shall refrain from using any improper or questionable methods of soliciting professional work and decline to pay or to accept commission for securing such work.

7.—He shall not compete with another engineer for employment on the basis of professional charges by reducing his usual charges and attempting to underbid after being informed of the charges named by the other engineer.

8.—He shall not accept compensation, financial or otherwise, for a particular service, from more than one source, except with the full knowledge and written consent of all interested parties.

9.—He shall not use unfair means to win professional advancement for himself, nor to injure the prospects of another engineer to secure or hold employment.

10.—He shall not tender on competitive work upon which he may be professionally acting as engineer, nor as consulting engineer in connection with any work upon which he may be the contractor without the written consent of his client.

11.—He shall discourage the practice of consulting engineering by manufacturers and contractors, and endeavor to have all engineering plans and other documents signed by the engineer directly responsible for them.

12.—He shall not accept any engagement to review the work of a fellow professional engineer for the same client except with the knowledge of such engineer, or unless the connection of such engineer with the work has been terminated.

13.—He should co-operate in upbuilding the engineering profession by exchanging general information and experience with his fellow engineers and students of engineering and also by contributing to the work of engineering societies, schools of applied science and to the technical press. He should interest himself in the public welfare.

# List of Members

ASSOCIATION OF PROFESSIONAL ENGINEERS  
OF THE PROVINCE OF ONTARIO

*Corrected to 30th November, 1923*

Abbreviations—C., Civil; Me., Mechanical; Ch., Chemical; E, Electrical; Mg., Mining. The branch first mentioned is the branch in which the member votes.

Members are requested to notify the Registrar of any errors, omissions, or changes of addresses.

## ROBERT CARR-HARRIS.

Robert Carr-Harris was born in London, England, on July 12th, 1843, his parents being Alexander Harris of Berkshire, and Ursula Carr of Yorkshire. At the age of fourteen he came to Canada with his parents. The family resided at Appleton, Wisconsin, and later at Truro, N.S.

In 1875 he married Ellen Jane Fitton, daughter of Dr. R. W. Fitton, M.D., of Cork, Ireland. There were six children, as follows:—

Mrs. Jas. A. Gunn, of Cairo, Egypt; Dr. F. F. Carr-Harris, M.C., D.S.O., M.D., of Honan, China; Capt. E. D. Carr-Harris, Royal Engineers, killed in Great War, 1914, in Cameroons, West Africa; Marguerite Carr-Harris, Dept. Public Health, Toronto; R. R. Carr-Harris, President Can. Colors & Chemicals, Toronto; Athol Carr-Harris, Mining Engineer, Kirkland Lake, Ont.

Mrs. R. Carr-Harris died in 1890 and in 1896 he married a second time, his wife being Bertha Wright, of Ottawa, daughter of E. V. Wright. By this marriage there were six children:

Grant Carr-Harris—Lieutenant Royal Engineers; Guy Carr-Harris, Dominion Securities Corporation, Montreal; Lorne Carr-Harris, Lieutenant Royal Artillery; Gwenyth Carr-Harris, at home; Brian Carr-Harris and Redford Carr-Harris, Cadets at R. M. C., Kingston.

R. Carr-Harris qualified as school teacher in Upper Canada in 1864, obtaining a First Class Certificate. He began his career as an Engineer in 1870.

1870-73—Assistant to District Engineer, I. C. R.

1874-1876—Divisional Engineer, C. P. R., in British Columbia.

1876-1879—Divisional Engineer, C. P. R., in Province of Quebec.

1879-1898—Professor Civil Engineering, and Architecture, R.M.C.

1898-1902—Professor Civil Engineering, Queen's University, Kingston.

1903-1905—Private practice.

1906-1909—Divisional Engineer, C.P.R. (Listowel).

1909-1913—Private practice.

1917-1920—Investigations for C.P.R. Ocean Terminals.

In 1920 he retired from practice and took up his residence at Bathurst, N.B., where he took up the management of his large farm of ten hundred acres. He died there on May 13th, 1923.

He joined the Canadian Society of Civil Engineers, but becoming dissatisfied he resigned, and about 1902 he was instrumental in

organizing a rival society known as the Dominion Institute of Amalgamated Engineers, with headquarters at Kingston, Ont. This new organization failed to receive the support of the profession and was short-lived. It should be stated, however, that this proposed Institute was intended to include in its membership those practising in all branches of Engineering and in this respect it foreshadowed the Association of Professional Engineers of which Mr. Carr-Harris became a member. His action in joining our Association indicated that he was in accord with the principles of our Act.

Two of his sons are also Registered Members of the Association.

---

### MARTIN LEONARD GILMORE

Martin Leonard Gilmore was born at Montreal on December 11th, 1891. He received his education at Massena High School, Massena, N.Y., and at Queen's University at Kingston. His professional career was as follows:—

1909-1913—Assistant operator at power house at Massena, N.Y.

1913-1915—Operator, Canadian Light & Power Company at St. Timothee, P. Q.

1915-1919—On active service in France with 21st Canadian Infantry Battalion. Demobilized at Montreal, May 23rd, 1918. He was wounded at Hill 70 and received Military Medal for bravery. He resumed his position with the Can. Light & Power Company at St. Timothee in 1919, which he held for about a year. He then took a position with the Can. General Electric Company of Toronto in the Sales Department.

He died in Toronto on July 24th, 1923, as the result of wounds received when on duty in France.

On June 1st, 1922, he married Violet Elizabeth Nord, of Toronto, who survives him.

The following members of his family are also living:—Father—Francis Leonard Gilmore, born 1869. Mother—Mary Catherine Fetterly, born 1869. Brother—Arthur Cecil Gilmore, born 1893. Sister—Mrs. J. J. Aitken, born 1895. All residing at Watertown, N.Y.

In December, 1922, he applied for membership in the Provincial Association and was registered in the Electrical branch.

## A. B. BARRY

Augustus Burges Barry was born at Dublin, Ireland, on May 27th, 1842. He received a military training at London, England, but followed Mechanical Engineering, and was employed in England, France and Holland until 1869. He then became interested in sewage disposal and in treating Indian and West Indian fibres.

In 1876 he came to Canada and entered as mechanical partner in the firm of Copp Bros. & Barry until 1884. During this period he was in charge of enlargements at the Hamilton Water Works Pumping Station under the direction of John Kennedy, of Montreal. From 1884 to 1888 he was outside manager for the Hamilton Bridge Works.

He then practised as a Consulting Engineer in Toronto, devoting his attention to Waterworks, Sewage Disposal, Mechanical Engineering Works, etc. In 1895 he was appointed Sanitary Engineer for the Health Department of the City of Toronto, a position he held until his death which occurred on April 22nd, 1923.

He married in 1883 Miss Alice Marion Armstrong, second daughter of William Armstrong, London, England. He had two brothers who predeceased him.

For a few years before his death he lived in a cottage on the north side of Queen Street East, the west limit of his beautiful large lot being the easterly limit of the city. His widow survived him, but he had no children.

Mr. Barry took an active interest in the organization of the Engineers' Club of Toronto, and in 1909 filled the president's chair.

In May, 1892, he was elected a member of the Canadian Society of Civil Engineers (now the Engineering Institute of Canada). He was highly esteemed by all his friends and acquaintances and more particularly by the Engineers with whom he was associated.

He applied for membership in the Provincial Association in December, 1922, and was registered in the Civil branch.
